6 ENERGY POLICY ADVOCATES, a
7 Washington nonprofit corporation,

8 Plaintiff,

9 v.

10 ELLEN ROSENBLUM, in her capacity as the
11 duly elected Attorney General for the State of
12 Oregon; OREGON DEPARTMENT OF
13 JUSTICE,

14 Defendants.

Case No. 20CV38257

COMPLAINT
(Oregon Public Records Law; Declaratory
and Injunctive Relief)

CLAIM NOT SUBJECT TO
MANDATORY ARBITRATION

This case is to take precedence pursuant to
ORS 192.431

Prayer: Declaratory and Injunctive Relief
Fee Authority: ORS 21.135(1), (2)(a), (f)

14 Plaintiff Energy Policy Advocates, a Washington Nonprofit Corporation, by and through
15 its attorney, Shawn M. Lindsay, brings this complaint against Ellen Rosenblum, in her official
16 capacity as the Attorney General for the State of Oregon, and the Oregon Department of Justice
17 (“Department of Justice”), and in support thereof avers as follows:

18 1.

19 This is an action for declaratory and injunctive relief under the Oregon Public Records
20 Law, Or. Rev. Stat. (“ORS”) §§ 192.311 *et seq.*, to enforce the right to inspect certain public
21 records in the custody of the Department of Justice.

22 2.

23 The Department of Justice is the main legal branch of the government of the State of
24 Oregon. The Department of Justice is the legal and physical custodian of the records at issue in
25 this lawsuit and is the “public body” within the meaning of the Oregon Public Records Law, ORS
26 192.311(4), and is required under ORS 192.314(1) to make available for public inspection “any

1 public record of a public body in this state, except as otherwise expressly provided by ORS 192.338
2 [Exempt and nonexempt public record to be separated], 192.345 [Public records conditionally
3 exempt from disclosure] and 192.355 [Public records exempt from disclosure].” Attorney General
4 Rosenblum is the head of the Department of Justice. ORS 180.210.

5 3.

6 Energy Policy Advocates requested, in three separate Public Records Law requests, copies
7 of Department of Justice correspondence with former U.S. Environmental Protection Agency
8 officials. These outside, private parties are largely now regulatory policy activists and were
9 expressly referred by another outside activist to attorneys general offices (AGO), in response to
10 one AGO’s request for names of “EPN folks.” “EPN folks” referred to a “501(c)(3)” policy group
11 calling itself “Environmental Protection Network,” launched “to harness the expertise of former
12 EPA career staff and confirmation-level appointees.”¹ All of these parties volunteered to help
13 promote a particular national regulatory agenda, including through pressure brought by state
14 attorneys general offices.

15 4.

16 The first request, submitted on July 7, 2020, requested copies of five categories of records
17 over various short, specified periods of time including certain described correspondence over a
18 two week period in December 2019, and any attachments, that was sent to or from or which copied
19 Department of Justice official² Steve Novick and/or Department of Justice employee Emma Borg;
20 certain described other correspondence over a two and a half month period in November 2019
21 through January 2020, that was sent to or from or copied Mr. Novick and/or Ms. Borg; certain
22 described call-scheduling invitations sent to or from Mr. Novick and/or Ms. Borg dated from
23
24

25 ¹ <https://www.environmentalprotectionnetwork.org/about/>, viewed October 19, 2020.

26 ² Mr. Steve Novick is not a DoJ employee. Public records indicate he came to the Department after being hired then
“seconded” to DoJ as a “Special Assistant Attorney General” by a private entity that was created for this purpose in
order to pursue energy and environment priorities of the organization’s creator, activist and major political donor
Michael Bloomberg.

1 November 18, 2019, through January 30, 2020; and calendars of Paul Garrahan and Steven Novick
2 dated November 18 through January 30, 2020. (Ex. 1).³

3 5.

4 The second request, submitted July 14, 2020, requested copies of four categories of records
5 over particular, specified periods of time including certain described correspondence, and any
6 attachments, dated December 3, 2019, through January 30, 2020, sent to or from or copying
7 Messrs. Novick or Paul Garrahan, and/or Emma Borg, that was also sent to or from or copied
8 parties “Bachmann,” “Ketcham-Colwill,” and/or “Schneeberg;” also, any agreement(s) entered
9 into or in effect between the Department of Justice and John Bachmann, Jim Ketcham-Colwill,
10 Nancy Ketcham-Colwill and/or Sarah Schneeberg Robinson at any time in 2019 or 2020. (Ex. 2).
11 Plaintiff also narrowed this request, later seeking those records excluded by that narrowing in its
12 third request at issue here, sent on September 23, 2020, and described, *infra*.

13 6.

14 The requested records are of great public interest. They reflect efforts by the Department
15 of Justice to enlist outside advocates in a campaign to impose an activist federal regulatory agenda.

16 7.

17 The Department of Justice acknowledged receipt of the requests on July 17, 2020,
18 combining them on the grounds of significant overlap in records responsive to the requests’
19 “correspondence” subsections, stating it had “located approximately 50 emails responsive to these
20 requests.” Defendants stated there were no agreements between the Department of Justice and the
21 four named parties named in the July 14, 2020, request (subsections 2-4). The Department of
22 Justice initially sought a fee of \$262.00 for retrieval and review of records, though this was lowered
23 to \$154.75 after Plaintiff narrowed the request⁴, after which Defendants stated “reduce[d] the
24 number of emails requiring review to about 20.” Plaintiff mailed a check for the fee.

25 _____
26 ³ This request originally included Paul Garrahan in all subsections, which Plaintiff dropped to narrow the search.

⁴ This originally sought all such correspondence that used, anywhere, “Bachmann,” “Ketcham-Colwill,” and/or
“Schneeberg,” which Plaintiff changed to “to, from, or copying” in order to limit the search.

1 8.

2 On August 4, 2020, the Department of Justice provided redacted copies of Mr. Garrahan's
3 official calendar for the requested dates, stating in pertinent part, "[i]nformation redacted on the
4 last page is exempt from disclosure under ORS 192.345(1) (pertaining to litigation)." (Ex. 3).

5 9.

6 On September 2, 2020, the Department of Justice provided redacted copies of Mr. Novick's
7 official calendar for the requested dates, stating in pertinent part, "[i]nformation that is redacted
8 was determined to be exempt under ORS 192.345(1) (pertaining to litigation) and 192.345(22)
9 (security codes)." (Ex. 4).

10 10.

11 On September 16, 2020, the Department of Justice provided the final installment of
12 responsive records, correspondence between one Department of Justice official (Mr. Novick) and
13 anywhere from one to three (of four total) different outside activists, with redactions, stating in
14 pertinent part, "[i]nformation redacted from the emails was determined to be exempt under ORS
15 192.345(1) (pertaining to litigation)." (Ex. 5). Of the original "approximately 50" records,
16 narrowed to "about 20" emails, Defendants produced 16 emails. Defendant confirmed no records
17 were withheld in full on September 16, 2020, however, Plaintiff is in possession of at least one
18 responsive email referenced in those records that were produced, but which itself was not
19 produced.

20 11.

21 Plaintiff then submitted its third of the requests at issue on September 29, 2020, seeking
22 the remaining "roughly 30 emails that we [Defendants] did not review that were responsive to your
23 original Jul[y] 14 request." (Department of Justice's Andrew Foltz to Plaintiff counsel Neal
24 Cornett, September 29, 2020). That is, those dated December 3, 2019, through January 30, 2020,
25 that was sent to or from or copying Mr. Novick and otherwise included, *anywhere*, the search terms
26 "Bachmann," "Ketcham-Colwill," and/or "Schneeberg." On September 29, 2020, Mr. Foltz

1 estimated “one hour of attorney review” to process this request at a cost to Plaintiff of \$143, noting
2 that Plaintiff had a credit of prior payments not refunded that was greater than that amount, and
3 asked if Plaintiff would like to apply that credit to that cost. Plaintiff agreed.

4 12.

5 On October 16, 2020, the Department of Justice provided its response, withholding 29
6 emails responsive to the request as exempt in their entirety under ORS 192.345(1) and/or ORS
7 192.355(9)(a) which incorporates ORS 40.255 (lawyer-client privilege, including the common
8 interest privilege).

9 13.

10 In the responses described herein withholding and denying Plaintiff access to requested
11 public information, Attorney General Rosenblum, as head of the Department of Justice, relies on
12 the conditional exemption in ORS 192.345 allowing agencies to withhold information pertaining
13 to litigation absent a public interest requiring disclosure and the lawyer-client privilege, including
14 the common interest privilege, incorporated by 192.355(9)(a).

15 14.

16 These redactions in emails exchanging thoughts with various former U.S. EPA attorneys
17 on the aforementioned policy campaign include, *inter alia*, apparent withholdings of discussion,
18 volunteered by these activists, of actress Jane Fonda getting arrested protesting in favor of the
19 desired policy agenda; discussion in that same context of a rumored future Environmental
20 Protection Agency Administrator; the descriptive part of emails’ Subject field; at least one
21 exchange in substantive full; and ten pages redacted in full. (*See Ex. 5*).

22 15.

23 The information, from its context, is not legitimately exempt from the Public Records Law
24 and the Defendants have demonstrated no countervailing interest to outweigh the public interest
25 in releasing information relating to Department of Justice solicitation from private activists about
26 possible campaigns to impose a sweeping regulatory shift; Defendants have not demonstrated the

1 threshold requirement of the conditional exemption that any litigation relevant to the requested
2 records is ongoing or reasonably likely to occur. Further, the exemption found in ORS 192.345(1)
3 exempts only that information compiled or acquired for use in litigation, not that compiled in the
4 ordinary course of business of the agency. *Lane County Sch. Dis. v. Parks*, 55 Or. App. 416, 420
5 (1981).

6 16.

7 To the extent any withheld information is arguably subject to the pending litigation
8 exemption, the public interest in information that illuminates the operations of a government
9 agency, specifically the principal law enforcement agency of the State of Oregon, as it is being
10 recruited by outside parties to use the agency's powers to advocate for the imposition of a
11 restrictive regulatory regime and recruiting other, private parties to advise it on doing so must be
12 considered.

13 17.

14 The lawyer-client privilege exemption incorporated by 192.355(9)(a) requires an analysis
15 of whether the communication is a confidential communication (ORS 40.225(1)(b)), whether it
16 was made for the purpose of facilitating the rendition of professional legal services (ORS
17 40.225(2)), and if the communication was made between the type of parties outlined in ORS
18 40.225(2)(a-f). *Port of Portland v. Oregon Center for Environmental Health*, 238 Or. App. 404,
19 410 (2010).

20 18.

21 The Defendants conclusory response to the September 23, 2020, request does not provide
22 the information necessary to make an informed analysis of whether each withheld record meets
23 the requirements of ORS 40.225.

24 PARTIES

25 19.

26 Plaintiff Energy Policy Advocates ("EPA") is a nonprofit organization incorporated in the

1 state of Washington which uses state and federal open records laws to reveal and educate the public
2 on private influences on governmental policy and on the use of its powers and resources. Part of
3 EPA's effort has been the record requests at issue in this matter.

4 20.

5 Defendant Ellen Rosenblum is the duly elected Attorney General for the State of Oregon.
6 Attorney General Rosenblum is the head of the Department of Justice, an elected official
7 contemplated in ORS 192.427, and her office is the custodian of records sought in this action. ORS
8 192.311(2)(b).

9 21.

10 Defendant Department of Justice is the main legal branch of the government of the State
11 of Oregon. The Department of Justice is the legal and physical custodian of the records at issue in
12 this lawsuit and is a "public body" within the meaning of the Oregon Public Records Law, ORS
13 192.311(4) and is required under ORS 192.314(1) to make available for public inspection "any
14 public record except as otherwise expressly provided by ORS 192.338 (Exempt and nonexempt
15 public record to be separated), 192.345 (Public records conditionally exempt from disclosure) and
16 192.355 (Public records exempt from disclosure)."

17 JURISDICTION AND VENUE

18 22.

19 This Court has subject matter jurisdiction, pursuant to ORS 192.411(2) and ORS 192.427.

20 23.

21 Venue is proper in Marion County Circuit Court pursuant to ORS 192.411(2) and ORS
22 192.427.

23 24.

24 ORS 192.411(1) permits, but does not require, an aggrieved public records requester to
25 seek Attorney General review of state agency withholdings. Given the Department of Justice's
26

1 role as the withholding agency, Plaintiff did not first seek Attorney General review of the
2 Department of Justice's own withholdings.

3 25.

4 This Court is required to review the Attorney General and/or the Department of Justice's
5 response under the Oregon Public Records Law *de novo*. ORS 192.431(1), which provides, in
6 pertinent part, "The court shall determine the matter *de novo* and the burden is on the public body
7 to sustain its action. The court, on its own motion, may view the documents in controversy in
8 camera before reaching a decision."

9 GENERAL ALLEGATIONS

10 26.

11 The requested records are public records within the meaning of the Oregon Public Records
12 Law, ORS 192.311(5), and contain information that is not exempt from disclosure. The requested
13 information is not exempt from inspection as the public interest demands the release of information
14 evidencing coordination of the Attorney General and Department of Justice with outside
15 advocates, with whom the Department of Justice has no privilege but only an ideological
16 alignment, theorizing on the advancement of a particular, federal regulatory scheme and otherwise
17 engaging in non-exempt discussion of personalities and events. Further, the Defendants have not
18 met the burden of establishing that the redacted and withheld records pertain to any litigation
19 currently ongoing or reasonably likely to occur as established in ORS 192.345(1) or that release is
20 contrary to the public interest; nor have they established that the redacted and withheld records are
21 subject to the lawyer-client privilege incorporated by ORS 192.355(9)(a).

22 27.

23 Any person has a right to inspect public records of public bodies in the state unless the
24 records are expressly exempted from disclosure. ORS 192.314; *In Def. of Animals v. Oregon*
25 *Health Sciences Univ.*, 199 Or. App. 160, 168 (2005).
26

1 28.

2 The custodian of a public record must provide a person who asks to inspect a record a
3 “reasonable opportunit[y]” to inspect or copy it, ORS 192.318(1) and 192.324(1)(b), barring
4 satisfaction of its burden to establish exemption of the withheld information.

5 29.

6 Defendants’ response does not satisfy the statutory requirements but instead provides a
7 conclusory justification for redacting public records.

8 **FIRST CLAIM FOR RELIEF**
9 **Duty to Produce Records – Oregon Public Records Law**
10 **Declaratory Judgment**

11 30.

12 Plaintiff re-alleges paragraphs 1-29 as if fully set out herein.

13 31.

14 Plaintiff is entitled to records subject only to legitimate withholding.

15 32.

16 Plaintiff has no requirement to further pursue its administrative remedies.

17 33.

18 Plaintiff asks this Court to enter a judgment declaring that:

19 a. The information requested in the July 7 & 14, 2020, and September 23, 2020, requests
20 are agency records subject to the Oregon Public Records Law;

21 b. The withheld, requested information is not exempt under ORS 192.345(1) as it is in the
22 public interest to release the records and Defendants have not demonstrated any litigation ongoing
23 or reasonably likely to occur or that the withheld information is privileged on those or other
24 grounds;

25 c. The withheld, requested information is not exempt under ORS 192.355(9)(a) as it does
26 not meet the requirements of ORS 40.255 to be protected confidential communications;

d. Defendants’ refusal to provide responsive records is unlawful; and

1 e. Defendants must produce responsive records.

2 **SECOND CLAIM FOR RELIEF**
3 **Duty to Produce Records – Oregon Public Records Law**
4 **Injunctive Relief**

5 34.

6 Plaintiff re-alleges paragraphs 1-33 as if fully set out herein.

7 35.

8 Plaintiff is entitled to injunctive relief compelling Defendants to provide Plaintiff the
9 withheld information which is responsive to Plaintiff's requests.

10 36.

11 Plaintiff asks the Court to enter an injunction ordering the Defendants to provide plaintiff
12 unredacted documents response to its request within 10 business of the date of the order.

13 **THIRD CLAIM FOR RELIEF**
14 **Costs and Fees**

15 37.

16 Plaintiff re-alleges paragraphs 1-36 as if fully set out herein.

17 38.

18 Pursuant to the Oregon Public Records Law, Plaintiff is entitled to recover costs and fees.
19 ORS 192.431(3) ("If a person seeking the right to inspect or to receive a copy of a public record
20 prevails in the suit, the person shall be awarded costs and disbursements and reasonable attorney
21 fees at trial and on appeal. If the person prevails in part, the court may in its discretion award the
22 person costs and disbursements and reasonable attorney fees at trial and on appeal, or an
23 appropriate portion thereof.").

24 39.

25 Plaintiff asks the Court to order the Defendants to pay reasonable attorney's fees and other
26 litigation costs reasonably incurred in this case.

1 WHEREFORE, pursuant to ORS 192.411, 192.427, and 192.431, Plaintiff prays as
2 follows:

- 3 a. That this Court assume jurisdiction over this action;
- 4 b. For an order enjoining Defendants from withholding the records outlined above and
5 ordering the production of such unredacted records for inspection by Plaintiff;
- 6 c. For a judgment awarding Plaintiff costs and disbursements and reasonable attorney
7 fees incurred in this proceeding, pursuant to ORS 192.490(3);
- 8 d. Preferential docketing of this case over other matters pursuant to ORS 192.431(2);
9 and
- 10 e. For such other relief as the Court deems equitable and just.

3. all electronic correspondence, and any accompanying information (see discussion of SEC Data Delivery Standards, *infra*), including also any attachments, a) sent to or from or copying (whether as cc: or bcc:) i) Paul Garrahan, ii) Steve Novick, and/or iii) Emma Borg that, b) was also sent to or from or copies Sara Schneeberg Robinson, and c) is dated from November 18, 2019 through January 30, 2020, inclusive; and

5. calendars of i) Paul Garrahan and ii) Steve Novick dated from November 18, 2019 through January 30, 2020, inclusive.

Regarding #1-4 of this request, we request entire “threads” of which any responsive electronic correspondence is a part, regardless whether any portion falls outside of the above time parameter.

Also regarding parts #1-4 of this request, please consider as non-responsive electronic correspondence that merely receives or forwards newsletters or press summaries or ‘clippings’, such as news services or stories or opinion pieces, if that correspondence has no comment or no substantive comment added by a party other than the original sender in the thread (an electronic mail message that includes any expression of opinion or viewpoint would be considered as including substantive comment; examples of non-responsive emails would be those forwarding a news report or opinion piece with no comment or only “fyi”, or “interesting”).

Additionally, please consider all published or docketed materials, including pleadings, regulatory comments, ECF notices, news articles, and/or newsletters, as non-responsive, unless forwarded to or from the named persons with substantive commentary added by the sender.

We understand that in some instances a public body may charge a fee for the cost of the search, examination, review, copying, separation of confidential from nonconfidential information, and mailing costs. If your Office expects to seek a charge associated with the searching, copying or production of these records, please provide an estimate of anticipated costs.

As noted earlier in this request, EPA is a non-profit public policy organization dedicated to informing the public of developments in the area of energy and environmental issues and relationships between governmental and non-governmental entities as they relate to those issues. EPA's ability to obtain fee waivers is essential to this work. EPA intends to use any responsive information to continue its work highlighting the nexus between interested non-governmental entities and government agency decision-making. The public is both interested in and entitled to know how regulatory, policy and enforcement decisions are reached. EPA ensures the public is made aware of its work and findings via its partnership with the non-profit public interest law firm Government Accountability & Oversight, P.C., and the [ClimateLitigationWatch.org](https://www.climatelitigationwatch.org) project dedicated to broadly disseminating energy and environmental policy news and developments. The public information obtained by EPA and published on [ClimateLitigationWatch.org](https://www.climatelitigationwatch.org) have

been relied upon by established media outlets, including the Washington Times and Wall Street Journal editorial page.¹

Energy Policy Advocates requests records on your system, e.g., its backend logs, and does not seek only those records which survive on an employee's own machine or account. We do not demand your office produce requested information in any particular form, instead **we request records in their native form**, with specific reference to the U.S. Securities and Exchange Commission Data Delivery Standards.² The covered information we seek is electronic information, this includes electronic *records*, and other public *information*.

To quote the SEC Data Delivery Standards, "Electronic files must be produced in their native format, i.e. the format in which they are ordinarily used and maintained during the normal course of business. For example, an MS Excel file must be produced as an MS Excel file rather than an image of a spreadsheet. *(Note: An Adobe PDF file is not considered a native file unless the document was initially created as a PDF.)*" (emphases in original).

In many native-format productions, certain public information remains contained in the record (e.g., metadata). Under the same standards, to ensure production of all information

requested, if your production will be de-duplicated it is vital that you 1) preserve any unique metadata associated with the duplicate files, for example, custodian name, and, 2) make that unique metadata part of your production.

Native file productions may be produced without load files. However, native file productions must maintain the integrity of the original meta data, and must be produced as they are maintained in the normal course of business and organized by custodian-named file folders. A separate folder should be provided for each custodian.

In the event that necessity requires your office to produce a PDF file, due to your normal program for redacting certain information and such that native files cannot be produced as they are maintained in the normal course of business, in order to provide all requested information each PDF file should be produced in separate folders named by the custodian, *and* accompanied by a load file to ensure the requested information appropriate for that discrete record is associated with that record. The required fields and format of the data to be provided within the load file can be found in Addendum A of the above-cited SEC Data Standards. All produced PDFs must be text searchable.

We look forward to your response. If you have any questions, do not hesitate to contact me by email at ncornettlaw@gmail.com.

Dear Sir or Madam:

On behalf of Energy Policy Advocates (EPA), recognized by the Internal Revenue Service as a non-profit public policy institute under § 501(c)(3) of the Internal Revenue Code, and pursuant to the Oregon Public Records Law, ORS 192.311, *et seq.*, please provide copies of the following records:

1. all electronic correspondence, and any accompanying information (see discussion of SEC Data Delivery Standards, *infra*), including also any attachments, a) sent to or from or copying (whether as cc: or bcc:) i) Paul Garrahan, ii) Steve Novick, and/or iii) Emma Borg that, b) includes, *anywhere*, whether in an email address, in the sent, to, from, cc, bcc fields, or the subject fields or body of an email or email “thread”, including also in any attachments, i) “Bachmann”, ii) “Ketcham-Colwill”, and/or iii) “Schneeberg” and, c) is dated from December 3, 2019 through January 30, 2020, inclusive; and
2. any agreement entered into or in effect between the Oregon Department of Justice and John Bachmann at any time in 2019 or 2020; and
3. any agreement entered into or in effect between the Oregon Department of Justice and Jim and/or Nancy Ketcham-Colwill at any time in 2019 or 2020; and

4. any agreement entered into or in effect between the Oregon Department of Justice and Sara Schneeberg Robinson at any time in 2019 or 2020.

Regarding part #1 of this request, we request entire “threads” of which any responsive electronic correspondence is a part, regardless whether any portion falls outside of the above time parameter.

Also regarding part #1 of this request, please consider as non-responsive electronic correspondence that merely receives or forwards newsletters or press summaries or ‘clippings’, such as news services or stories or opinion pieces, if that correspondence has no comment or no substantive comment added by a party other than the original sender in the thread (an electronic mail message that includes any expression of opinion or viewpoint would be considered as including substantive comment; examples of non-responsive emails would be those forwarding a news report or opinion piece with no comment or only “fyi”, or “interesting”).

Additionally, please consider all published or docketed materials, including pleadings, regulatory comments, ECF notices, news articles, and/or newsletters, as non-responsive, unless forwarded to or from the named persons with substantive commentary added by the sender.

We understand that in some instances a public body may charge a fee for the cost of the search, examination, review, copying, separation of confidential from nonconfidential information, and mailing costs. If your Office expects to seek a charge associated with the searching, copying or production of these records, please provide an estimate of anticipated costs.

As noted earlier in this request, EPA is a non-profit public policy organization dedicated to informing the public of developments in the area of energy and environmental issues and

relationships between governmental and non-governmental entities as they relate to those issues. EPA's ability to obtain fee waivers is essential to this work. EPA intends to use any responsive information to continue its work highlighting the nexus between interested non-governmental entities and government agency decision-making. The public is both interested in and entitled to know how regulatory, policy and enforcement decisions are reached. EPA ensures the public is made aware of its work and findings via its partnership with the non-profit public interest law firm Government Accountability & Oversight, P.C., and the [ClimateLitigationWatch.org](https://climatelitigationwatch.org) project dedicated to broadly disseminating energy and environmental policy news and developments. The public information obtained by EPA and published on [ClimateLitigationWatch.org](https://climatelitigationwatch.org) have been relied upon by established media outlets, including the Washington Times and Wall Street Journal editorial page.¹

Energy Policy Advocates requests records on your system, e.g., its backend logs, and does not seek only those records which survive on an employee's own machine or account. We do not demand your office produce requested information in any particular form, instead **we request records in their native form**, with specific reference to the U.S. Securities and

Exchange Commission Data Delivery Standards.² The covered information we seek is electronic information, this includes electronic *records*, and other public *information*.

To quote the SEC Data Delivery Standards, “Electronic files must be produced in their native format, i.e. the format in which they are ordinarily used and maintained during the normal course of business. For example, an MS Excel file must be produced as an MS Excel file rather than an image of a spreadsheet. (*Note: An Adobe PDF file is not considered a native file unless the document was initially created as a PDF.*)” (emphases in original).

In many native-format productions, certain public information remains contained in the record (e.g., metadata). Under the same standards, to ensure production of all information requested, if your production will be de-duplicated it is vital that you 1) preserve any unique metadata associated with the duplicate files, for example, custodian name, and, 2) make that unique metadata part of your production.

Native file productions may be produced without load files. However, native file productions must maintain the integrity of the original meta data, and must be produced as they are maintained in the normal course of business and organized by custodian-named file folders. A separate folder should be provided for each custodian.

In the event that necessity requires your office to produce a PDF file, due to your normal program for redacting certain information and such that native files cannot be produced as they are maintained in the normal course of business, in order to provide all requested information each PDF file should be produced in separate folders named by the custodian, *and* accompanied by a load file to ensure the requested information appropriate for that discrete record is

² <https://www.sec.gov/divisions/enforce/datadeliverystandards.pdf>.

associated with that record. The required fields and format of the data to be provided within the load file can be found in Addendum A of the above-cited SEC Data Standards. All produced PDFs must be text searchable.

We look forward to your response. If you have any questions, do not hesitate to contact me by email at ncornettlaw@gmail.com.

Sincerely,

A handwritten signature in black ink that reads "Neal Cornett". The signature is written in a cursive, slightly stylized font.

Hello all. We'd be happy to talk with Steve. It sounds strange but developing the ANPR was a high point of our careers. Lots of career folks got to communicate what they thought was useful. Of course, the Bushies then shat all over it in the 80 pages of screed that they stuck in the front of the FR notice, but the good stuff (science and technological summaries and legal and economics analyses) was still there. Happy holidays!

Yes, I am generally free most days before 11:30 a.m. and after 3:30 p.m. eastern time.

I just realized it's halfway through January and I haven't followed up with you! Are you still available most days before 830 and after 330? (And am I right in assuming that's eastern time?)

Hi Steve, I should be generally available in January. I tend to have commitments most days between about 11:30 and 3:30, but most days before 11:30 and after 3:30 I should be available to talk. Have a great holiday and I'll speak with you in January.

Hello all. We'd be happy to talk with Steve. It sounds strange but developing the ANPR was a high point of our careers. Lots of career folks got to communicate what they thought was useful. Of course, the Bushies then shat all over it in the 80 pages of screed that they stuck in the front of the FR notice, but the good stuff (science and technological summaries and legal and economics analyses) was still there.
