Dear Professor Horowitz,

Hope you are well. I am Ronan Farrow's investigative researcher and we are working on a story about Energy Policy Advocates, Government Accountability and Oversight (GAO) and the various iterations of the group.

We have spoken with scientists that have been targeted by the groups and given your experience encountering GAO and their FOIAs, it would be great to chat further. If possible, when would be convenient to set up a call?

Kind regards,  
Georgia Gee

Hi Professor Horowitz,

Just following up to see if you would have some time to chat in the coming week? We spoke with Ann Carlson and would love to chat further about your experience. Happy to talk in whatever way you feel comfortable.

Kind regards,  
Georgia
